New Intranet Site to Provide Access to Center Information

"Inside Marshall," a new intranet site to provide quick and easy access to Center information, will be officially activated Jan. 29. Developed by the Project LIGHT Intranet Team, the site is designed to be a "one-stop information shop" for Marshall employees and on-site contractors. It will not replace existing internet or intranet activities, but is intended to complement what is already being provided. The site may be previewed at "<http://www/inside>."

MARS Dance Club Valentine Dance, 6:30 - 11 p.m. Feb. 15 at the Civic Center

Results of Career Training Survey Now on the Web

Summary results of the Project LIGHT Career Development Survey completed by employees last week are on the Web at "<http://desktop.msfc.nasa.gov/chance>." More than 275 employees participated in the survey. Results will be used by the Project LIGHT Team to recommend improvements in training and development.
